Headline Guide

Headline

Best Practices

Font: *Barlow Black* | **Size:** 70-90 | **Line Spacing:** 1.1-1.25
Capitalisation: *Title Case/ Sentence case / ALL CAPS* for short copies only

Short and sweet, not more than 2 lines.
Usually the largest words in the visual.
Most visible in the visual, must be the first thing you see.
Either all in one colour or highlight main point in bright colours.

Option 3

**Single colour works
best with subheads**

Option 4

**Another option
Can be like this**

The possibilities are endless. Just have fun!

Feel free to explore and play around with different combinations.

Sub-Headline *Guide*

Sub-Headline

Best Practices

Font: *Open Sans (semibold or semibold italic)* | **Size:** 30-50
Capitalisation: *Sentence case only*

Short and sweet, not more than 1 line.
Always smaller than headline.
Better to remain in 1 colour for ease of reading.

Don't Settle for Less

Option 1

Up to you to italicise or not.

Option 2

This is semibold, sub-headline with highlight

Sub-headlines are boring.

Just keep it simple and straightforward.

THIS IS YOUR CTA

CAN BE ITALIC

OR NOT

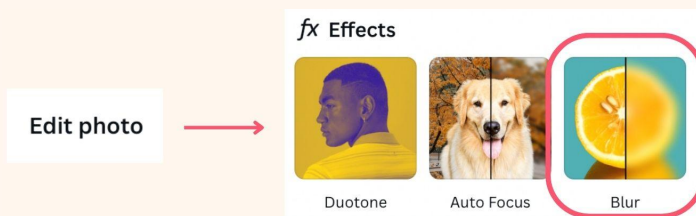

Keep your CTA short, easy to see, and straight to the point!

Photo Background *Guide*

PHOTO BACKGROUND

Best Practices

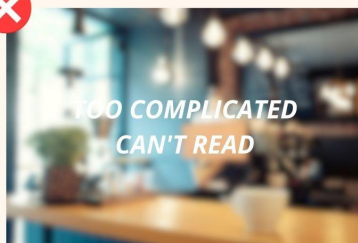

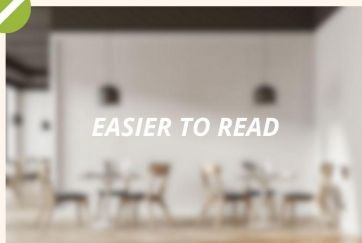

1. Background shall always be **blurred**, you can manually blur with canva it if it isn't:

Recommended Blur Range: 40-60

Also depends on the situation.^

2. Best to find background with **less colours and not too busy**.

Where to get

1. Canva's Photo bank

Easily accessible but limited choice

- 2.

Decent stock photo
Good amount of asian talents as well

- 3.

Less asian talents but good amount of
stock photos with unlimited downloads.

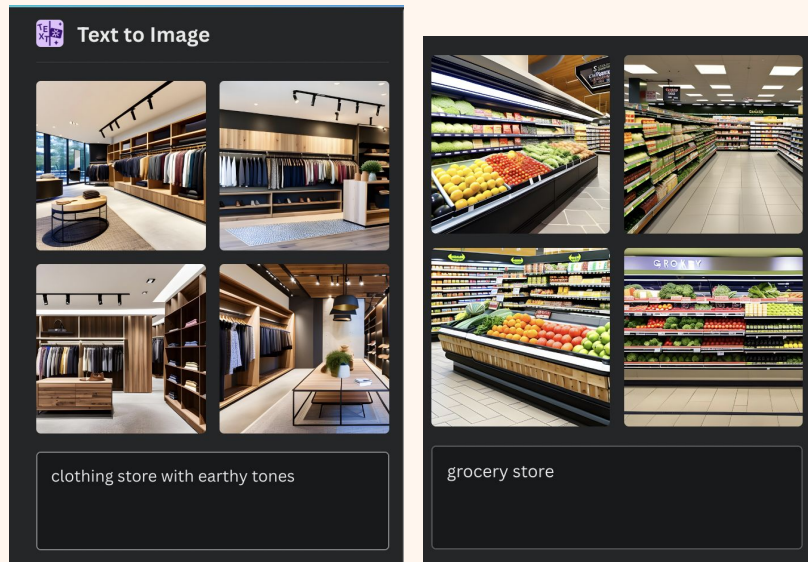

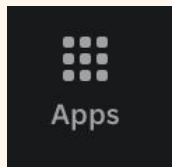

We have access to all of the pro accounts for the above ^
just get the logins from 1password or give the designers a ping and we'll download it for you:)

Where to get

4. Canva's AI - Text to Image function

On the left toolbar:
Apps > Text to Image

New function.
Not perfect in terms of humans but
for background it's pretty dang powerful.

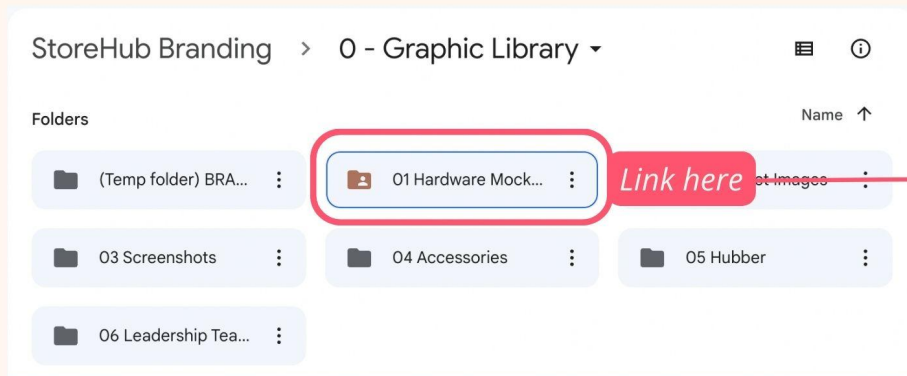

Devices *Guide*

Devices Guide

*If you don't already know,
we have a graphic library for our devices!
(including MY, PH, TH)*

*We're still working very hard to update it constantly, if you need anything specific like POS with bar items, cannabis, interface in your local currency or something that's not in the drive, just ping the designers and [we'll customise it for you!](#) (Give us some time tho).
We're designers, not magicians.*

Or you can always give us some suggestions on what else to add into it, so that we'll make everyone's life easier in the future!

Info				Status		Apple
Falcom 1	D1 (+NFC)	D2	D4	D2	T2	iPad
RNF1550	TSC	inactive	inactive	inactive	RNF2000	RNF1480

There's also a guide on each country's active and inactive devices.

So you can always double check if the device you feature is correct and up to date!

In the drive, you can just download whichever device photo you want and splat it on top of your desired visual!

BONUS

Animation Guide

Utilize Canva's **animation feature!**
It's pretty limited but it's good enough for GIFs
& simple motion graphics.

They have different animation presets for
Page, Photo and Text!

Have fun and experiment with it!
